1 PROFESSIONAL SUMMARY

Innovative Front-End Developer in Transition from Construction Excellence to Tech Innovation

With a decade-long foundation in construction, I've developed **strong leadership, troubleshooting, and team-building skills**, but my passion has always been in technology. This led me to pursue a career transition into front-end web development, where I can blend my hands-on experience in problem-solving with a deep interest in tech. Currently, I am enrolled in the FES Institute bootcamp, sharpening my skills in **HTML, CSS, JavaScript, and React, with practical experience in responsive design**, e-commerce, and real-world project development.

I bring a unique combination of **resilience, attention to detail**, and customer satisfaction—traits refined through years in construction. Now, I'm ready to take on a remote front-end developer role where I can contribute fresh ideas, **strong work ethics**, and a proactive approach to teamwork and innovation.

2 TECHNICAL SKILLS

- Front-End Development: HTML, CSS, JavaScript, React
- Additional Skills: Responsive Design, Code Debugging, Version Control (Git)
- Tools: VS Code, GitHub, Chrome Developer Tools, Word Press

3 PROFESSIONAL EXPERIENCE

PVC Spiral Supply - Currently employment since May 12th of 2023

Tig Welder /CNC Programmer/Operator

- Programming & Operation: Programmed CNC lathes and mills with high precision, ensuring efficient and safe production processes for custom orders.
- **Quality Assurance:** Conducted routine checks and maintenance to maintain optimal machine performance, minimizing production delays.
- **Continuous Improvement:** Streamlined coding for CNC operations, reducing production times and improving consistency.
- **Collaboration:** Worked with production team to troubleshoot issues, significantly decreasing machine downtime and enhancing output efficiency.

Lee Family Designs LLC -Owner/Operator from SEP 2021 – APR 2023

- **Entrepreneurial Leadership:** Founded and managed a custom jewelry business, overseeing all stages of design, production, and customer service.
- **Design & Craftsmanship:** Created handmade copper and silver jewelry, developing expertise in metalwork, customer trend analysis, and market positioning.
- **Sales & Marketing:** Used social media and word-of-mouth marketing to build a loyal customer base and increase brand awareness.
- **Business Operations:** Managed budgeting, inventory, and pricing strategies independently, ensuring profitability and sustained growth.

Caleb Lee

Cascade Enterprises- 10 YEARS EXP

- TIG WELDING
- **Leadership:** Supervised a team on construction projects, fostering a collaborative and motivated environment, ensuring timely project completion.
- **Customer Relations:** Served as the main point of contact for clients, addressing questions and providing on-site support.
- **Problem Solving:** Quickly identified and resolved on-site issues, avoiding project delays and enhancing client satisfaction.
- **Training & Development:** Trained team members on safety protocols and efficient work practices, contributing to a 20% reduction in project times.

4 EDUCATION
